Mount St. Mary's College.

Emmitsburg, Md., June 29th, 1886.

Looking to the welfare of our school and the interest of our pupils, it is our intention to reorganize the Junior Department in September, so that the younger pupils may be separated as much as possible from all associations with older students.

The need of an institution for the training of very young boys is felt throughout the land. We hope therefore in reorganizing this department that our friends will give us that encouragement and patronage they have so freely bestowed in the past; while we on our part will endeavor to prove ourselves worthy of the public confidence so long enjoyed by this college.

Letters of inquiry should be addressed to

PROSPECTUS

—OF—

Mount St. Mary's College,

EMMITSBURG, MD.

MOUNT ST. MARY'S COLLEGE was founded in 1808 by Father John Dubois, afterwards Bishop of New York. In 1812, Rev. Simon G. Bruté, afterwards the first Bishop of Vincennes, was associated with the founder in conducting the College. A new college building was completed in 1824, but on the 6th of June of that year it was destroyed by fire. A larger building was erected and occupied in 1826. The College obtained its first charter from the Legislature of the State of Maryland in 1830, during the presidency of Rev. John B. Purcell, afterwards Archbishop of Cincinnati. From the year 1838 to 1871 Very Rev. John McCaffrey, D.D., presided over the College.

During this first century of its existence many distinguished men have been educated at Mount St. Mary's College. The names of Cardinal McCloskey, Archbishop Hughes, Archbishop Purcell, Archbishop Corrigan, Archbishop Elder, Bishops J. M. Young, Francis H. Gartland, George A. Carrell, John Loughlin, Richard V. Whelan, William Quarters, John Quinlan, F. P. McFarland, John Conroy, Edward Fitzgerald, Richard Gilmour, William McCloskey, John L. Spalding, John A. Watterson, Francis S. Chatard and H. P. Northrop; Rev. John McCaffrey, D.D.; Hon. James McSherry, the historian of Maryland; Jerome Bonaparte, Charles Harper, Gen. James M. Coale, George H. Miles, James Meline, Rev. John O'Brien, author of a History of the Holy Mass; Hon. John Lee Carroll, Franklin B. Gowen, and Charles W. Hoffman are found in the list of its alumni.

Since its foundation by Bishop Dubois, there has been maintained in connection with the College an Ecclesiastical Seminary for the education of missionary priests. Many of the Theological students defray their expenses wholly, or in part, by teaching classes in the College.

The institution is under the direction and control of an association of clergymen, and, in addition to the clergy, there are in the faculty several eminent lay professors. The number of teachers and tutors furnished by the Seminary is such that classes are limited in membership, so that more than ordinary attention can be given to each pupil.

The material interests of the College are under the control of a Board, the members of which are selected from among the more distinguished alumni. The Archbishop of Baltimore, by virtue of his office, is President of this Board.

LOCATION AND BUILDINGS.

The College buildings are situated on high ground at the foot of the Maryland range of the Blue Ridge Mountains. The location is pleasant, healthy, and convenient of access. The celebrated Academy of St. Joseph's, and the mother house of the Sisters of Charity, founded by Madam Seton, are in the immediate vicinity. To many parents the chief advantage presented by Mount St. Mary's College is its quiet seclusion and remoteness from the distractions, excitements, and dangers of the city. The large farm and gardens belonging to the College furnish abundance of the choicest dairy produce, fruits and vegetables. The vicinity of the College is a delightful summer resort.

The buildings are substantially constructed of stone, and the class-rooms, study halls, and dormitories are spacious, well ventilated, lighted with gas, and comfortable both in summer and winter.

RECREATION AND DISCIPLINE.

The recreation grounds are extensive and well shaded, and contain a gymnasium, ball alleys, and ample space for athletic games and all health-giving exercises. Students during recreation hours can leave college bounds in the company of a prefect or tutor for long walks through the country. In sickness and in

health the students are cared for, directed and watched over with parental kindness and solicitude. All are instructed in the doctrines of the Roman Catholic religion, and trained to the practice of Christian morality. Vocations to the clerical state are frequent in the upper classes, and the piety and purity of youth are guarded and promoted in every possible way.

There is a Junior Department, separate from the others, in which are educated such youthful students as are not likely to profit by ordinary college discipline and studies.

The effective though unobtrusive supervision of the clergy, aided by the constant presence of the prefects, secures the peaceful reign of good order, industrious application to study and obedience to the laws of morality and social propriety. Gentle reproof, kindly correction, the instinct of honor, and, above all, moral and religious influences, are generally found effective in the maintenance of college rules, discipline and study.

THE COURSE OF STUDIES.

Students coming from other colleges are required to produce certificates of good conduct and industry from the authorities thereof. Their standing and classes are determined by examination. In addition to the usual promotions at the beginning of the scholastic year, advancement to a higher grade is sometimes attained at the middle examination by extraordinary talent and industry. The regular college course for such as desire to take the degrees, embraces the Greek and Latin Languages, French (or German, at the option of the student), Moral Philosophy, Logic, Mathematics, Chemistry, Natural Philosophy, Geology, English Grammar and Literature, Geography, History, and Christian Doctrine.

The study of chemistry, astronomy and other sciences is facilitated by an excellent apparatus, chemical laboratory, and an extensive mineralogical collection.

Reports of all the classes are read monthly in the presence of the Faculty and the school.

Parents and guardians are informed by bulletins sent to their address as to talents, progress, application, and conduct of their sons or wards.

There is also a general examination at the end of the school

year, when degrees and honors are conferred and awards of merit announced and printed in the annual report.

The first honors of the college will be determined by the written examination at the close of the school year. In case of doubt the question will be decided in favor of the student having the highest monthly notes.

There is a scientific and business course, from which the study of Latin and Greek is omitted, and in which more attention is paid to commercial requirements, such as book-keeping, mercantile accounting and kindred branches.

All are required to follow the course of studies prescribed for the department into which they are allowed to enter.

DEGREES.

The degree of Bachelor of Arts is conferred on such students as have followed and completed the regular collegiate course, subject to the following conditions:

1st. At least the last year of the course must be made in this College.

2d. The student must show in the private and the public examination that he has attained, in all the classes embraced in the regular collegiate course, the degree of proficiency fixed by the rules for graduation.

3d. He must prepare a literary essay or discourse satisfactory to the Faculty, and deliver the same in public, on Commencement Day, if requested to do so.

The degree of A.M. is conferred on such students as have devoted themselves for at least two years after taking the degree of A.B. to additional studies, or to some literary pursuit or learned profession, and who make timely application for the same.

Graduates of the commercial department will receive diplomas or proper certificates on application.

COLLEGE SESSIONS AND TERMS.

There is a recess of a few days at Christmas. If students leave the College during that time, they must return promptly on the appointed day. No student will be allowed, except for reasons of absolute necessity, to absent himself from College at

any other time during the school year while Classes are in progress.

The sessions of the College begin on the first of September and the first of February, and continue five months each, and the charges per session are as follows:

IN THE COLLEGE.

Board and Tuition, Washing and Mending of Linen, per session of five months	$150 00

IN THE PREPARATORY AND COMMERCIAL COURSE.

Per session of five months	$135 00

IN THE JUNIOR DEPARTMENT.

Board, Tuition, Washing and Mending of Linen, per session of five months	$125 00

EXTRA CHARGES.

Any Modern Language taken out of Course, per session	$10 00
Music or Drawing, per session	22 50
Use of Piano, per session	6 00
Use of Scientific Instruments, in some Classes	5 00
Medical Attendance and Medicine, per session	5 00
Vacation Board, per week	10 00

All these charges must be paid in advance, and where bills are not paid on presentation, the College reserves to itself the privilege of issuing a draft for the amount. The non-acceptance of such draft will be considered a notice of withdrawal of the pupil, unless some satisfactory explanation is made.

No deduction will be made in case of withdrawal during a session, except for cause satisfactory to the College authorities.

Classes are entered between the fifth and twelfth of September, and former students returning after the latter date forfeit promotions, prizes, and honors, which they might otherwise receive during the year. Exceptions to this rule may be made in rare cases for good cause.

New comers may, however, enter at any time. Their classes will be determined by examination, and they will be charged only from the date of entry.

Although the College is accessible by rail, by way of either Frederick, Hanover or Gettysburg, the most convenient route is

by way of Union Depot, Baltimore, and thence over the Western Maryland and Emmitsburg railroad.

Any student whose parents reside abroad, or at a great distance from the College, must have at some convenient place a responsible friend or guardian bound to defray his expenses, and to receive him in case of dismissal.

No student will be allowed to enter for a shorter period than one session of five months, the charges for which must be paid in advance.

Each student should have on entering at least three complete suits of clothing, suitable to the season, a set of table napkins and a napkin ring. No uniform is required, but neatness, simplicity, and economy in dress are encouraged by the College. Pocket-money must be dispensed through the Treasurer, and should be limited to about two dollars a month.

Books, stationery and clothing will be furnished at current prices by the College, at the request of parents, provided a deposit to defray the probable cost is made in advance. Money intended for a student's use must be sent through the Treasurer.

When a student is about to withdraw from College, timely notice must be given, his account settled, and traveling expenses provided for.

The annual vacation begins on the last Wednesday of June, Commencement Day, and ends on the second Tuesday of September. The College is open for students on the first day of September, and some remain during the entire vacation.

St. Joseph's Academy for Young Ladies.

EMMITSBURG, MD.

This beautiful and commodious Institution, fostered in the same nursery as Mount St. Mary's, has always held the highest reputation for the refined and virtuous education given to its pupils. It is situated in a lovely valley, at the foot of the Blue Ridge, about two miles from the College, and about half a mile from Emmitsburg.

The location, as well as the high standing of these two Institutions, thus offers peculiar advantages to parents who have both sons and daughters to be educated; for both may be visited at the same time, and the brothers and sisters have the opportunity of seeing one another every month during the course of the academic year.

Letters of inquiry should be addressed to the
